

ADITYA CHAUHAN

chauhanaditya072@gmail.com | 9638985433 | Vadodara, Gujarat | github.com/aditya072690 | linkedin.com/in/aditya07269

PROFESSIONAL SUMMARY

Full Stack Developer with 2+ years of experience designing and deploying scalable web and mobile applications using React, React Native, Next.js, Node.js, TypeScript, PostgreSQL, and Firebase. Proven expertise in database optimization (90% query performance improvement), authentication systems, and real-time features. Led complete product lifecycles from development to production deployment on App Store and Google Play Store.

PROFESSIONAL EXPERIENCE

Oneknotone Technologies | Software Developer

January 2024 – Present

OKO Home Multi-Role Dashboard

- Built responsive multi-role dashboard frontend using React.js and Next.js with TypeScript, supporting role-based access control (RBAC) for 3+ user types
- Developed backend APIs with Node.js and .NET, implementing JWT authentication, input validation, and secure REST endpoints
- Optimized React rendering performance by 40% through React.memo, useMemo, and useCallback; engineered responsive UI supporting 500+ concurrent users

VR & Flutter App Integration

- Developed immersive 3D virtual environments using C++ with Unreal Engine, implementing FPS player navigation, camera controls, and interactive object interactions
- Built auto-play functionality for VR tours enabling automated walkthroughs of virtual spaces
- Engineered Flutter application with real-time data synchronization, enabling live state changes to propagate from Flutter app to VR systems
- Implemented WebSocket-based real-time features for seamless mobile-VR interaction and event-driven architecture

Database & Performance Optimization

- Optimized database queries using strategic indexing and JOIN optimization, reducing response times by 90%; implemented pagination for large datasets
- Managed schema migrations and version-controlled database changes across 5+ production deployments

Development & Deployment

- Led Git-based workflows including code reviews, pull requests, and Docker containerization; participated in Agile sprint planning and retrospectives

TECHNICAL SKILLS

- Languages:** JavaScript, TypeScript, Python, Swift, Java, Dart, C/C++
- Frontend:** React, React Native, Next.js, HTML5, CSS3, Tailwind CSS, Flutter
- Backend:** Node.js, Express.js, .NET, REST APIs, PostgreSQL, Supabase, Firebase, JWT Authentication, Role-Based Access Control, Cloud Functions
- Tools & Practices:** Git, Docker, GitHub, Postman, Figma, Agile Development, Performance Optimization, Mobile-First Development, Code Reviews

PROJECTS

VaultX – Secure Cloud File Storage SaaS Platform

Portfolio Project

- Architected end-to-end secure file storage platform with Next.js 14 and React frontend, backend APIs with .NET and Node.js Express
- Implemented JWT authentication, role-based access control (RBAC), WebSocket real-time features, and file versioning for 500+ concurrent users
- Optimized database queries reducing response times by 90% through strategic indexing; achieved 99.2% uptime in production
- Deployed on Vercel and Railway with GitHub Actions CI/CD pipeline; integrated AWS S3 for scalable cloud storage

Geeta Olympiad 2025 – React Native Mobile App (Freelance)

Nov 2025 – Jan 2026 | Google Play | Apple App Store

- Independently designed, developed, and deployed complete React Native application from architecture to production
- Built authentication system, real-time quiz engine, leaderboard system, and push notification framework using Firebase
- Published and maintained on Google Play Store and Apple App Store with 6,000+ downloads and 4.5+ star rating

VizSpace – 3D Virtual Tour Platform

Jan 2026 – Apr 2026 | vizspace.in

- Built responsive next-gen frontend using Next.js and React.js for interactive 3D virtual tours of residential buildings, flats, and complexes
- Developed backend APIs with .NET and Node.js; implemented authentication and secure API endpoints for real estate builder clients
- Optimized performance for production deployment achieving <2s page load times on desktop and mobile

Learn Geeta – React Native Mobile App (Freelance)

Sep 2025 – Nov 2025 | Google Play | Apple App Store

- Implemented OTP authentication, Firebase integration, and push notification system for 5,000+ active users
- Developed REST API integration and managed production deployments with post-release optimization for iOS and Android

Atmos Farms – Next.js Website

Oct 2025 – Nov 2025 | atmosfarms.com

- Built and deployed responsive Next.js website in production environment
- Optimized mobile responsiveness and page load performance achieving 90+ Lighthouse score

EDUCATION

BTech Computer Science and Engineering | Navrachana University, Vadodara

2020 – 2024

KEY ACHIEVEMENTS

- Reduced database query execution time by 90% through optimization and indexing strategies
- Improved React rendering performance by 40% through advanced memoization techniques
- Led independent development of production mobile app with 6,000+ downloads and 4.5+ rating
- Maintained 99%+ uptime on SaaS platform supporting 500+ concurrent users
- Achieved 90+ Lighthouse scores on responsive web applications
