

ADITYA CHAUHAN

chauhanaditya072@gmail.com | 9638985433 | Vadodara, Gujarat | github.com/aditya072690 | linkedin.com/in/aditya07269

PROFESSIONAL SUMMARY

Full Stack Developer with 2+ years of experience designing and deploying scalable web and mobile applications using React, React Native, Next.js, Node.js, TypeScript, PostgreSQL, and Firebase. Proven expertise in database optimization (90% query performance improvement), authentication systems, and real-time features. Led complete product lifecycles from development to production deployment on App Store and Google Play Store.

PROFESSIONAL EXPERIENCE

Oneknotone Technologies | Software Developer

January 2024 – Present

React & React Native Development

- Engineered responsive React dashboards for business operations using TypeScript and Firebase, supporting 500+ concurrent users
- Optimized React rendering performance by implementing React.memo, useMemo, and useCallback, reducing re-renders by 40%
- Developed React Native features including OTP authentication, push notifications, and bug fixes across iOS and Android

Full-Stack SaaS Development

- Architected and delivered scalable SaaS platform using React, TypeScript, PostgreSQL, Supabase, and Node.js
- Built secure REST APIs with JWT authentication, input validation, and role-based access control (RBAC) for 3+ user roles
- Implemented real-time features and multi-tenant support enabling 99.2% uptime in production

Database & Performance Optimization

- Optimized PostgreSQL queries using strategic indexing, JOIN optimization, and pagination; reduced database response times by 90%
- Managed schema migrations and version-controlled database changes across 5+ production deployments
- Implemented media processing and storage optimization workflows reducing asset load times by 60%

VR & Mobile Integration

- Developed Flutter application integrated with Unreal Engine VR systems, enabling real-time mobile-VR interaction
- Optimized Unreal Engine VR applications improving frame rate stability by 35%

Development & Deployment

- Led Git-based workflows including peer code reviews, pull requests, and Docker containerization
- Participated in Agile sprint planning, estimating, and retrospectives across cross-functional teams

Geeta Olympiad 2025 (Lead Developer)

- Independently designed, developed, and maintained complete React Native application from architecture to production
- Integrated Firebase for authentication, analytics, push notifications, and crash reporting
- Published and maintained app on Google Play Store and Apple App Store (6,000+ downloads, 4.5+ rating)
- Delivered quiz modules, real-time leaderboards, user onboarding, and notification system

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, Python, Swift, Java, Dart, C/C++
Frontend: React, React Native, Next.js, HTML5, CSS3, Tailwind CSS, Flutter
Backend: Node.js, Express.js, REST APIs, PostgreSQL, Supabase, Firebase, JWT Authentication, Role-Based Access Control, Cloud Functions
Tools & Practices: Git, Docker, GitHub, Postman, Figma, Agile Development, Performance Optimization, Mobile-First Development, Code Reviews

PROJECTS

Geeta Olympiad 2025 – React Native Mobile App

Nov 2025 – Jan 2026 | Google Play | Apple App Store

- Designed and developed complete React Native application from architecture to deployment
- Built authentication, quiz engine, leaderboard system, and push notification framework
- Integrated Firebase for analytics, authentication, and crash reporting
- Achieved 6,000+ downloads with 4.5+ star rating; maintained 99%+ uptime

VizSpace – Full-Stack Business Platform

Jan 2026 – Apr 2026 | vizspace.in

- Built end-to-end Next.js platform with backend APIs and authentication
- Developed responsive UI supporting desktop and mobile; integrated third-party APIs
- Optimized performance for production deployment achieving <2s page load times

Learn Geeta – React Native Mobile App

Sep 2025 – Nov 2025 | Google Play | Apple App Store

- Implemented OTP authentication and Firebase integration for 5,000+ active users
- Developed push notification system and REST API integration
- Managed production deployments and post-release optimization for iOS and Android

Atmos Farms – Next.js Website

Oct 2025 – Nov 2025 | [atmosfarms.com](#)

- Built and deployed responsive Next.js website in production environment
- Optimized mobile responsiveness and page load performance achieving 90+ Lighthouse score

EDUCATION

BTech Computer Science and Engineering | Navrachana University, Vadodara

2020 – 2024

KEY ACHIEVEMENTS

- Reduced database query execution time by 90% through optimization and indexing strategies
- Improved React rendering performance by 40% through advanced memoization techniques
- Led independent development of production mobile app with 6,000+ downloads and 4.5+ rating
- Maintained 99%+ uptime on SaaS platform supporting 500+ concurrent users
- Achieved 90+ Lighthouse scores on responsive web applications
